My dear Mr. Connally,

I have your kind letter of 18th inst, and many clippings which you have sent me, all of which I enjoyed.

Your second article in Collier's is bully.

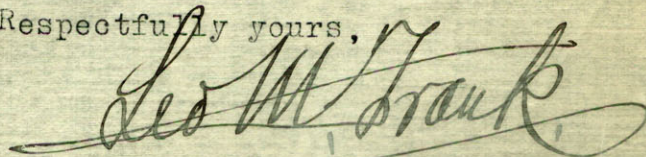

When you have those pamphlets, concerning which you have written me, completed, I would thank you if you would send me, via mail, two or three dozen for distribution here in the jail. I say two or three dozen if they are not too bulky, and if it is not asking too much of you.

I will be glad to hear from you from time to time as to how our matters are proceeding.

I feel with you that my ultimate vindication must come, altho I must confess that it is hard for me at this time to see just in which way it will come about. However, I know I have very many faithful friends working, and an unjust thing cannot prevail.

With every good wish, I am

Respectfully yours,

LMF/Mrs LMF

P.S. My wife and parents join me in extending to you and yours the best wishes of the season.
